Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 07 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A dry start but turning wet and very windy.

Today:
A dry, cold and frosty start, before rain and hill snow, accompanied by very strong winds spreads eastwards across all parts during the afternoon. Becoming drier by late evening as rain clears but staying windy. Maximum temperature 4 deg C (39 deg F).

Tonight:
Drier into the evening as rain clears but remaining very windy, and further showers are likely into the early hours, wintry over higher ground. Minimum temperature 2 deg C (36 deg F).

Wednesday:
Winds slowly easing into Wednesday but remaining blustery and unsettled with further showers or more prolonged rain, and some hill snow possible. Maximum temperature 5 deg C (41 deg F).

Outlook for Thursday to Saturday:
A drier day through Thursday with lighter winds. Further rain overnight into Friday but generally a bright and breezy day before turning unsettled Saturday with rain likely once again.
